Held the role of class leader, managing academic coordination and student engagement across multiple years.

## CAREER OBJECTIVE

Enthusiastic and detail-oriented Computer Science student seeking an opportunity to apply academic knowledge in a practical setting. Eager to contribute to IT/software development projects while enhancing skills in programming, teamwork, and real-world problem-solving.

## PROJECTS

### Gym Client Tracker – Android Application

Tools: Android Studio, Java

Built a mobile app for gym instructors to manage client profiles, workout plans, and attendance.

### Bus Reservation System – Desktop Application

Tools: C#

Created a Windows-based application with user login, seat selection, and ticket generation.

### Library Management System – Web Application

Tools: JSP, JavaScript, HTML, CSS, SQL

Developed a web-based system for managing books, user registration, and inventory.

## INTERNSHIP

### Software Testing Intern – Tao.ai (2 Weeks, Remote)

Worked on UI/UX testing, test case creation, and bug reporting in real-world scenarios.

## CERTIFICATION

### IoT Certification – NPTEL (SWAYAM)

Completed a course on IoT fundamentals, architecture, protocols, and cloud integration.
